

To Whom It May Concern,

I am providing written documentation to certify that Libby Elliott has volunteered with Renown Health from February 2016 to January 2018. She has experience volunteering in multiple areas and departments such as at the GSU (General Surgical Unit) nurses station at the Renown South Meadows Medical Center, assisting with answering phones and restocking as well as at the Admitting Department desk where she was able to provide assistance with admitting patients into pre-surgical appointments. Libby also volunteered at Monaco Ridge Assisted Living within Renown South Meadows where she provided support for the residents living there, the residential aides, and the activities coordinators. She has recently been assisting at the lab at Renown Regional to create a cancer registry by reading through archived reports. This work has been unpaid and therefore constitutes as volunteer work done through the Renown Health volunteer department.

Should you have any questions please feel free to contact me anytime.

Sincerely,

Wendy Peukert
Volunteer Coordinator, Renown Health
